Fairfield County
Engineering Technology Camp
How an idea becomes a reality • Using STEM in manufacturing

Does your junior high schooler love Legos, math, technology, or science? Then this is the engineering technology camp for them. This inaugural camp uses STEM (science, technology, engineering, math) in fun and creative ways. Students will learn how things are made—from research and design to the finished product. This five-day engineering technology camp is facilitated by a college instructor as well as a junior high STEM teacher. Students will see their classroom lessons come to life with tours of area manufacturers that use cutting edge technology and automation.

To be a part of this exciting new engineering technology camp go to **Fairfield33.com** or contact Fairfield County's Economic Development Department at **Rick.Szabrak@ fairfieldcountyohio.gov** or **740-652-7160.**

When: **July 10 – July 14 8 a.m. – 3 p.m.**

Where: **Ohio University Lancaster Engineering Tech Lab**

Who: **Must be 8th or 9th grade students for the 2017-2018 school year** and attend a school in Fairfield County, or are home schooled and Fairfield County residents

Cost: **$50 with scholarships available.** Includes continental breakfast and lunch every day.

Apply: **Apply online at fairfield33.com.** Limited number of spots available. Applications due by May 12.
