Fairfield County Engineering Technology Camp

How an idea becomes a reality • Using STEM in manufacturing

This inaugural camp uses STEM (science, technology, engineering, math) in fun and creative ways to educate students on how things are made – from research and design to the finished product. The five-day engineering technology camp is facilitated by an Ohio University Lancaster professor as well as a junior high STEM teacher. Students will see their classroom lessons come to life with tours of area manufacturers that use cutting-edge technology and automation.

Fairfield33.com • 740-652-7160

When: July 10 – July 14
8 a.m. – 3 p.m.

Where: Ohio University Lancaster
Engineering Tech Lab

Who: Must be 8th or 9th grade students
for the 2017-2018 school year
and attend a school in Fairfield
County, or are home schooled and
Fairfield County residents

Cost: \$50 with scholarships available.
Includes continental breakfast and
lunch every day.

Apply: Apply online at fairfield33.com.
Limited number of spots available.
Applications due by May 12.

Central Ohio's Road to Opportunity

OHIO
UNIVERSITY
Lancaster
Imagine your possibilities.

Planning Our Trip

We will foster a community where everyone has the opportunity to be gainfully employed and contributing to the economy.

7,500 new jobs by 2027

- The population is estimated to grow from **151,408 in 2015 to 179,679 in 2027** – and we want to ensure there are opportunities for our residents to work at high wage jobs in Fairfield County.

\$500 million in investments

- Since 2007, there have been **\$274 million** or \$27.4 million per year invested into the county; we want to nearly double this growth over the next 10 years!

Increase average wages in Fairfield County by 25% by 2027

- The current average annual wage of \$35,165 ranks 69th out of 88 Ohio counties. Fairfield County has averaged a **1.8% wage increase per year** for the past five years – we need to focus on improving this by bringing in good-paying, quality jobs.

Strategies to Success:

1. **Market the 33 corridor** to targeted industries throughout the country and globe.
2. **Support each community's unique economic development goals** by eliminating barriers to economic development through advocacy and collaboration.
3. **Ensure we have the workforce** to support new businesses and industries.
